Message of Condolence

We are saddened by the shocking news of the untimely demise of Prof Christian Guilleminault. This is an irreparable loss to the fraternity of sleep physicians and to the discipline of Sleep Medicine. It is impossible to put in words the contribution that Prof Guilleminault made to the discipline of Sleep Medicine.

The Indian Sleep Disorders Association (ISDA) has had a very long and cherished relationship with Prof Guilleminault. He had graced our annual conferences on several occasions and with his presence he had encouraged us in all our endeavours. He was one of the editors of our journal, the Indian Journal of Sleep Medicine and had contributed articles for publication in the journal.

Dr J C Suri like several others also had the honour of being trained in the discipline under Prof Guilleminault in 1996. The void left behind by Prof Guilleminault would be impossible to fill.

We on behalf of the ISDA extend our condolences to the bereaved family. We hope to live up to the expectations of Prof Guilleminault, which we feel would be the best gift one could pay to the doyen of the discipline of Sleep Medicine.

Dr D Bhattacharya
Honorary Secretary
(ISDA)

Dr J C Suri
Chairperson & Founder President
(ISDA)
